

TAKUMI

Lexus Takumi are some of the most skilled craftsmen in the world. They've dedicated thousands of hours in training and practice to hone their skills and uphold the highest standards in every Lexus vehicle. The origami cat is actually a test of dexterity Lexus Takumi take every day. They are required to fold an origami cat with their non-dominant hand in under 90 seconds. It's just another example of what sets Lexus-level quality apart from the rest and why it's virtually unattainable for others.
